

WELCOME TO HARTLEY BOTANICA

What to expect when you get on-site:

When you first enter the gate, you will see a sign immediately to your right that says **"Do not enter, valet and staff parking only"**. Turn right in there. (If you go all the way down the driveway, the valet will stop you and let you know where to park.) Go all the way to the end of this parking lot, and all the way to the left. This will put you at the edge of the reception area, closest place to unload.

FOR DJ OR BAND:

There is a little paved walkway, from the parking lot to the reception area; the bandstand/DJ stand is to the right, elevated from the grass area. It is paved and underneath a tree. In the middle of the bandstand is an outlet that says **"ONE GOOD PLUG"**. This is what you want to plug into. It is your own separate circuit, separate from lighting and catering, with 1,600 watts of power.

Also note, we do have volume restrictions, but they are measured from the closest residence (1/2 mile up the street). It's usually not a problem, but if ANYONE asks you to turn the volume down, please respect us. Noise complaints affect the renewal of our permit to do weddings. **If you cannot respect the noise level, or the police are called for a loud music complaint, you will be asked not to return for future events.**

Karen (818) 651-2071, or Barbara (805) 444-2146, will be your contact person if you need help.
