Professional Event Coordinator

We have taken the hard part out of planning by securing a professional event planner at a special rate, through Bella Dia Weddings. Here is an excerpt from the Bella Dia Brochure:

HOW WE PREPARE FOR YOUR EVENT

01

Meet

We have an in-person meeting at your venue to go over logistics - where everything will be placed and your vision of how it will look. We also go over your wedding day timeline - the Wedding Party, the flow of each event, vendors, and your décor/wedding items.

02

Timeline and Vendor duties

Our Team will reach out to each vendor to discuss their duties, needs, and provide them with a structured timeline and our support.

03

Rehearsal

During your **1 hour** Rehearsal you'll learn where parents sit, where bridal party sit/stand, and the processional/ recessional (walking in and out). We'll also go over any day-of items and decor you may have.

04

Wedding Day

Your big day is finally here! Time for you to relax and enjoy yourself at your beautiful venue while we ensure a smooth and successful day.

BOOK WITH CONFIDENCE

Hartley Botanica is a legally permitted venue in Ventura County. This might not seem important to you as a newly engaged couple. You want to book a venue that you love! Recently, some Ventura County venues that have not gone through the permitting process are technically operating illegally. This can result in a couple losing their venue (and deposit) last minute after the venue is inevitably shut down by the County. Talk about stress!

As permitted venue (since 2002), we want to educate our couples so they can make an informed decision as to where they will host their dream day and protect them from falling into the trap of booking an illegal venue. In Ventura County, in order to host weddings or events on private property, the venue must go through a rigorous process to obtain a Conditional Use Permit, or CUP. This permit is good for 5 to 10 years, before being renewed. The CUP imposes conditions to protect the health, safety and welfare of surrounding neighbors, event guests, and workers. It ensures traffic, noise, sanitation, building safety and fire safety access impacts are mitigated. This permit typically takes at least 2 years to obtain. Venues that have a CUP take it very seriously because if they fail to stay in compliance, they run the risk of jeopardizing the future of their business.

- Having a website, blog, or paid advertising is not the same as having a permit.
- Being “in the permit process” does not guarantee a venue will actually obtain this permit.

Any permitted venues have the permit badge (above) on their website in order for you to book with confidence.
